

Auto Top-up Guide

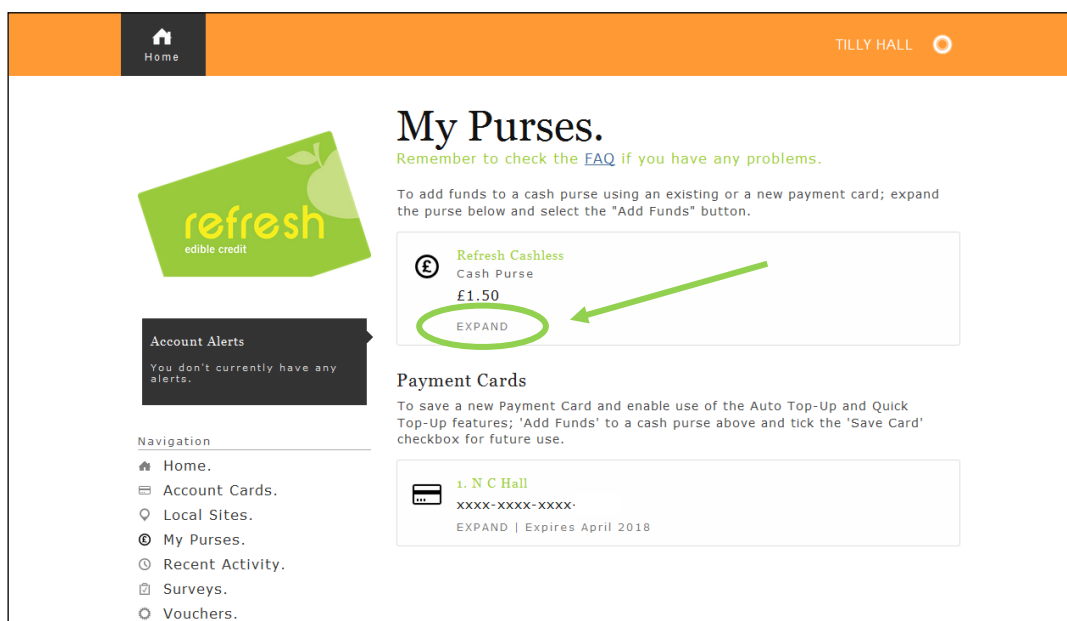

Please note that to set up auto top up you must first save a payment card. To save a payment card simply add funds to your Refresh card purse and click the **'save card'** box. For more details see our [Refresh card guide here](#).

How to set up Auto Top-up

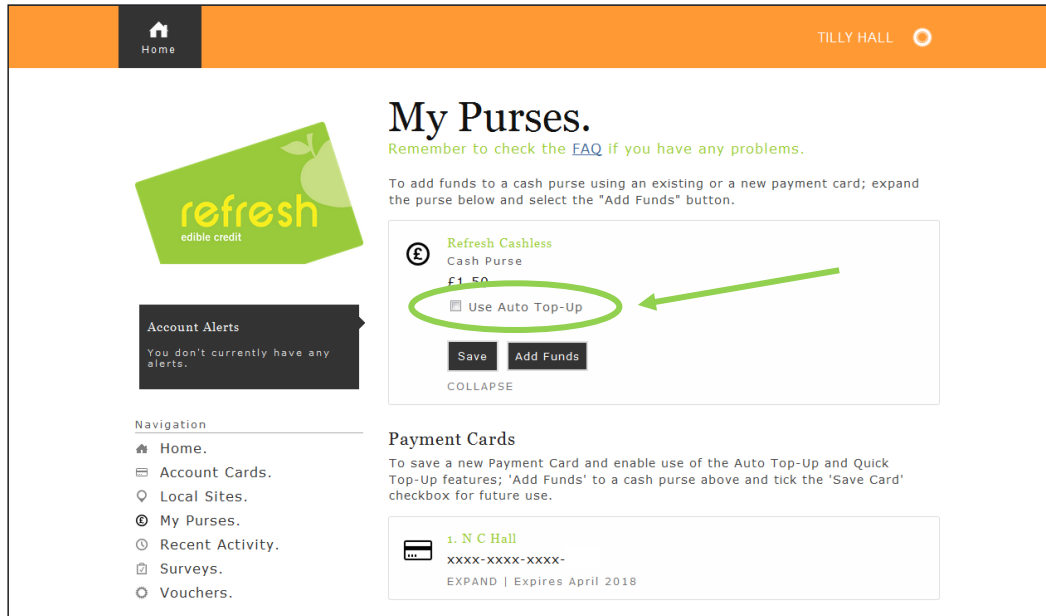

1. Log into your Refresh card account [here](#).
2. Click on **'My Purses'** in the left hand menu.

3. Click on **'Expand'** underneath your Refresh card purse balance.

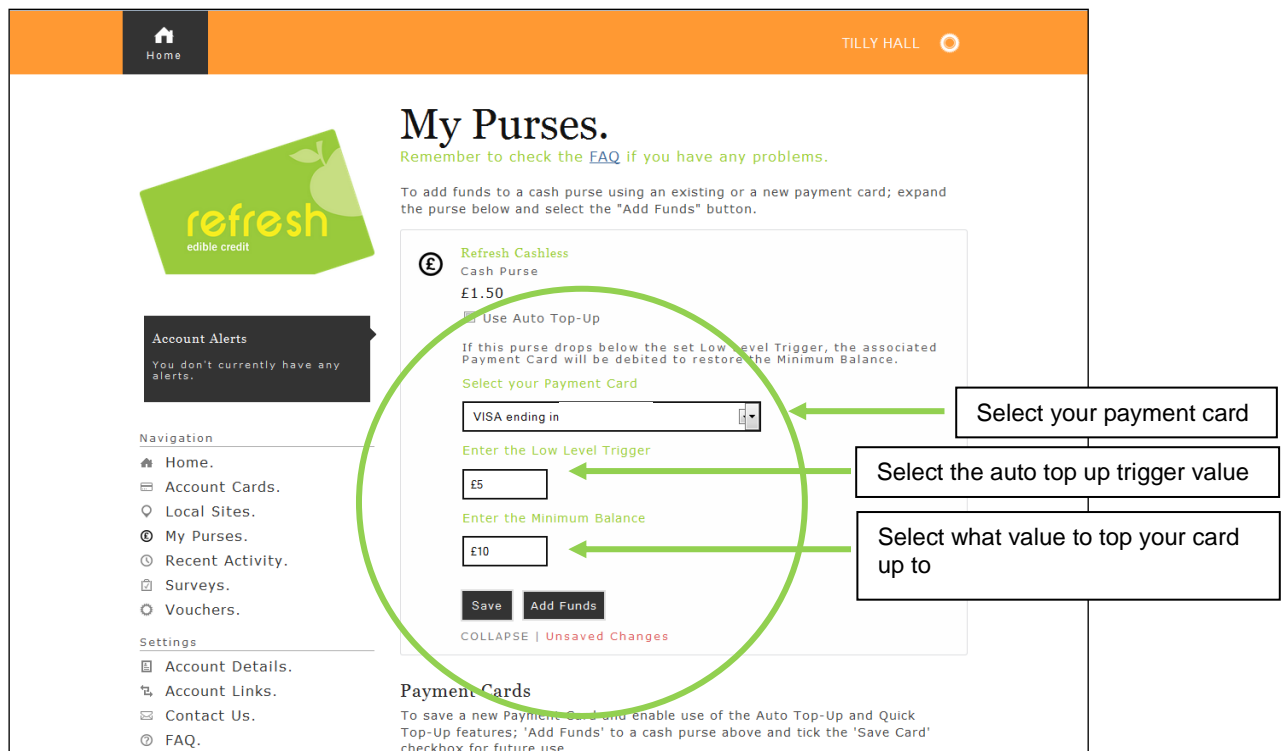

4. Tick 'Use Auto Top Up'.

5. Set up Auto Top-up values:

- Choose the saved payment card you would like to use. This payment card will be charged each time your Refresh card automatically tops up.
- Then simply select a lower 'trigger level'- this is the purse balance you want to trigger the auto top up e.g. £5. You also need to select a 'minimum top up' which is the purse balance you would like your Refresh card to top up to e.g. £10.

- Once you have saved these details every time your balance drops to £5 or below your Refresh card will automatically top up to £10 using the saved payment card details.
